

ABHAY KUMAR SHARMA

7044345051 | abhaysharma@shooliniuniversity.com | Solan (HP) | [LinkedIn](#)

CAREER SUMMARY

A B.Tech student in Cloud Computing with a focused interest in Generative AI and full-stack application development. Demonstrates hands-on expertise in building RAG pipelines, integrating LLMs, and deploying AI-powered applications using LangChain, FAISS, Pinecone, and AWS. A self-driven learner with a proven record of translating real-world problems into working AI solutions, applying prompt engineering, vector search, and modern backend and frontend technologies to build end-to-end systems.

EDUCATION

Bachelor of Technology – Cloud Computing / Shoolini University / Solan
8.82 CGPA

Aug 2023 – Present

SKILLS

Python | HTML5 | CSS3 | Tailwind CSS | JavaScript | React.js | FastAPI | MySQL | LangChain | Prompt Engineering | RAG | Pinecone | FAISS | AWS EC2 | AWS S3 | Vercel | Git / GitHub | VS Code | Jupyter Notebook

ACADEMIC PROJECTS

Document Intelligence Q&A System

Aug 2025

- Built a document Q&A system that loads PDFs using PyPDFLoader and splits them into chunks (chunk size 800, overlap 80) for semantic indexing.
- Used all-mpnet-base-v2 embeddings with a custom chunking strategy and similarity search (k=4) to retrieve relevant context for accurate, grounded answers.
- Indexed document embeddings in Pinecone, a managed cloud vector database, enabling scalable semantic search over enterprise documents
- Implemented a custom question-answering function with Groq LLaMA 3.3 (70B) constrained to answer only from retrieved context, verified through test queries on real document content

Laundry Mart - Service Booking

Aug 2026

- Built and deployed a laundry service booking website with a cart system to add/remove services and view the live total
- Used JavaScript DOM manipulation and event handling (addEventListener(), querySelector()) to manage cart state and UI updates dynamically.
- Integrated EmailJS to send real-time booking confirmation emails to both the customer and the owner.

CERTIFICATIONS

- Getting Started with Git and GitHub — IBM (Coursera), Jan 2026
- Generative AI and ChatGPT — GeeksforGeeks, Nov 2025
- AWS Academy Graduate– Cloud Foundations — Amazon Web Services

INTERESTS AND HOBBIES

- Basketball
- Pool

LANGUAGE PROFICIENCY

Fluent: English and Hindi
